

Look like a box of Good & Plenty for a cause with **Twin Six's Fat Cyclist** jersey. This 100% Polyester Microfiber jersey is made in Poland, has three back pockets, a 16" zipper, sublimated graphics and an anti-microbial treatment to help keep the funk from settling in. It is a limited edition run from which all proceeds will be donated to the **Lance Armstrong Foundation**. Purchases will also demonstrate your support for Susan, the Fat Cyclist's wife, and all others battling breast cancer. Available in size S-3XL in both men's and women's cuts for \$60. Check out [www.twinsix.com](http://www.twinsix.com) for a sizing chart.

If you bruise like a peach (or like a certain fragile *DirT Rag* editor) give **Boiron homeopathic products** a try. Both the **Sportenine tablets (\$19)** and cream (\$7) are formulated from arnica, a perennial herb—you know, a flower—that increases blood circulation when massaged into the skin, relieves muscle soreness and reduces the swelling and discoloration of bruises. The tablet form dissolves on your tongue into a sugary-sweet mixture that doesn't require a chaser and helps prevent cramps and muscle fatigue. Learn more uses, warnings, and the historical aspects at [www.boironusa.com](http://www.boironusa.com)

For you downhillers and freeriding folks **FSA's Gravity Light series** offers a bar and stem to meet your needs. The cold-forged, CNC machined stem includes chromoly hardware and a 4-bolt faceplate in a sturdy, stout design. It's available for \$85 in a 1.5" 31.8mm x 60mm (pictured) or 90mm with a 6° rise. The 1-1/8" version comes in 50, 70, 90 or 105mm for \$80. The Gravity Light bar is triple-butted and tapered AL7050 with a 25 or 40mm rise. Available in 25.4 or 31.8mm x 680 or 710mm (pictured, \$75) with 5mm cutting marks and centering lines for stem alignment. Both pieces are made in Taiwan. Ever need more bite from your spirits? Well then **Vicious Cycles** has the shot glass that'll make you howl. This ceramic shooter boosts a generous pour and is available in black or white, with an accented Vicious Cycles logo on one side and their canine friend on the opposite. They are \$5 each, made in China and will be the envy of your drinking buddies. [www.viciouscycles.com](http://www.viciouscycles.com)

**Smith Optics** introduces their latest replaceable lens sunglass, the **Interlock Trace**. The frame actually clamps down or pops open when changing the lenses. Just grasp and rotate the temple piece 90° to split the frame enough to release pressure on the lens. Pop another lens into the track, rotate back to the starting position and Voilà!—the tension returns to pinch the Grilamid TR90 frame closed. There are 14 different carbonic lenses to choose from, but the black frames (shown) come with Polarized Grey, Clear Mirror and Ignitor (rose) for \$139. A stiff protective case and a lifetime warranty are included. Made in France. [www.smithoptics.com](http://www.smithoptics.com)

It seems like the foul weather season is fast approaching and that means more time spent cleaning your machine. **SRAM's Ultimate Bike Cleaning Kit (\$50)** could make the chore easier. Included in the snap-top storage bucket that doubles as a wash tub is 500ml of a P.T.F.E. formulated bike protectant, 1 liter of biodegradable cleaner with a trigger dispenser, four bike specific scrub brushes, and a large microcell sponge. All of which can be purchased as a kit (cheap) or separately (not as cheap). [www.sram.com](http://www.sram.com)
