

WIN HiFi

**A GARY FISHER HIFI PLUS,
WORTH £1400!**

GARY FISHER

Thanks to our pals at Gary Fisher UK, we have a fantastic Gary Fisher HiFi Plus to give away.

The HiFi falls into Fisher's 'Trail' series of bikes intended for the kind of riding most of us think mountain biking is all about. Riding up hills, stopping at the top for a chat, and bombing back down them. Big days out with lots of Haribo stops, or non-stop epics trying to wear yourself out. The HiFi does it all. (The HiFi that rode last year was great to ride, with a particular love of fast, sweeping turns.)

The key to the Gary Fisher line is the 'G2' geometry, using a different fork crown (on this bike, a Rockshox Recon 351). The trail is reduced, allowing more low-speed stability while the cockpit has been shortened slightly to put more rider weight on the front wheel.

Gary popped in to the Singletrack offices recently and came out for a ride with us. As well as marveling at our local trails, free range chickens and beer, Gary was very excited about his 2008 range of bikes. (As you can see...) We hope to get one into Singletrack to test soon - in the meantime you can beat us to it and win your own one!

For more details on the Gary Fisher range of bikes and the rest of the HiFi range, look at www.fisherbikes.co.uk

Question:
Fisher's G2 Geometry affects which part of the bike?

- a) Fork Trail
- b) Saddle droop
- c) Wheel roundness

The winner of the Shimano XT Groupset in issue 40 was:
Jon Swift from Bacup.

My Answer is:

Name:

Address:

.....

Postcode:

E-mail:

Telephone:

Send entries to:

Fisher- Chicken of the Sea
Singletrack
Lockside Mill
Dale St
Todmorden
OL14 5PX

Closing date is Weds 30th April

Photocopies are fine!
